

The beauty of Uptown's gardens reflects its diverse and vibrant community members. The **Second Annual Uptown Garden Walk** provides attendees an opportunity to explore the various unique identities of the neighborhood. Garden Walk participants will explore gardens that residents and organizations alike have come together to create and maintain throughout the years.

There are three different themes to give a picture of the different types of gardens that exist in our community. Join one of the Guided Tours at the times listed below, or Guide Yourself using the map.

COASTAL HARVEST, 1pm presentations & 2pm tour starting at ICA GreenRise, 4750 N. Sheridan Road: Led by Susan Ask of Animalia Project and Melanie Eckner of the Uptown Coastal Initiative, this tour highlights Uptown's original coast, park and community gardens, and restored native habitats.

TREES, 4pm tour starting at ICA GreenRise, 4750 N. Sheridan Road: Led by Andrew Lueck of Planned Forest, this tour highlights best tree species for urban areas, benefits of urban trees, general tree care, and how to preserve trees during construction activity.

SIDEWALK & HERITAGE GARDENS: Guide yourself to browse a variety of gardens including beautiful, historically rooted community gardens and public spaces reimagined as neighborhood gardens.
